****SELF-TAPE INSTRUCTIONS****

TIPS FOR TAPING THE AUDITION

<https://www.heidimarshall.com/the-art-of-self-tape/>

PLEASE TAPE INDOORS AGAINST A PLAIN WALL / BACKGROUND.

- FRAME: Please make sure that when taping the actual audition scenes, you are framed tight
 - just above the top of the head to mid chest.

- WALL: Find a quiet room that has very little or no background noise. The wall behind you should ideally be white, gray, blue and plain. Try to position yourself a few feet away from the wall to avoid shadows. (Don't film in front of a window.)

- LIGHT: Make sure the main light source comes from behind the camera, since you want the viewer to be able to see your face clearly.

- CAMERA: Your camera should ideally sit on a tripod to maintain a steady image. If you don't have a tripod, make sure you can put the camera on a stable surface or have someone hold it steadily.

- READER: Please have the person reading the other lines in the scene with you stand RIGHT next to the camera, not in the shot.

- WARDROBE: Wear a plain solid color that contrasts with your background, so you don't distract from the audition, unless told otherwise.

***** REMINDER: Please watch your video before uploading. If you cannot see or hear yourself very well on your video, we won't be able to either *****
